Table of Contents: Volume 1, 1988

Number 1

Editorial 5

A Study of FMS Part Type Selection Approaches for Short-Term Production Planning ..... *Kathryn E. Stecke and Ilyong Kim* 7

Equipment Selection and Task Assignment for Multiproduct Assembly System Design ..... *Stephen C. Graves and Carol Holmes Redfield* 31

Analytical Performance Models for Closed-Loop Flexible Assembly Systems ..... *Manjunath Kamath, Rajan Suri and Jerry L. Sanders* 51

A Distributed Knowledge-Based Approach to Flexible Automation: The Contract Net Framework ..... *Michael J. Shaw and Andrew B. Whinston* 85

Number 2

Production Planning of a Flexible Manufacturing System in a Material Requirements Planning Environment . *Joseph B. Mazzola, Alan W. Neebe* .....*and Christopher V.R. Dunn* 115

An Inexact Algorithm for Part Input Sequencing with Side Constraints in FMS .....*L.F. Escudero* 143

A Loop Layout Design Problem for Flexible Manufacturing Systems .... *Panos Afentakis* 175

Number 3

Performance Comparison of Assembly Systems with Fixed and Flexible Cycle Times ..... *Dennis E. Blumenfeld* 207

Allocating Buffer Storages in a Flexible Manufacturing System ... *Kut C. So* 223

A Tool Provisioning Problem in an FMS .... *Thomas W. Graver and Leon F. McGinnis* 239

Modeling FMS with Decision Petri Nets ..... *S. Wadhwa and Jim Browne* 255

Number 4

Algorithms for Efficient Planning and Operation of a Particular FMS .... *Kathryn E. Stecke* 287

Quality Control of an Unreliable Flexible Manufacturing System with Scrapping and Infinite Buffer Capacity ..... *Lie-Fern Hsu and Charles S. Tapiero* 325

Optimal Buffer Allocation in a Multicell System ....*J. George Shanthikumar and David D. Yao* 347
